

RESTORER 237

Restorer 237 is a superb mop-on restorer especially designed for *Endura Floor Finish 203*, as well as other metal interlock acrylic finishes. It will restore worn, scuffed, and scratched finishes to a dazzling brilliance which even exceeds the original shine. Use of **Restorer 237** eliminates the need for much of the recoating usually necessary and greatly extends the life of the floor finish to minimize stripping and recoating.

PHYSICAL PROPERTIES

Appearance:	Milky white liquid
pH (as is):	6.5 - 7.5
Specific Gravity:	1.02
Weight:	8.49 lbs/per gallon

DIRECTIONS

1. Dust mop or sweep the floor if solid dirt, dust, or debris is present.
2. If the floor is dirty, wet mop with *Neutral Cleaner 451* or suitable all purpose cleaner diluted 2 to 4 ounces per gallon of water. Allow the floor to dry before mopping on **Restorer 237**.
3. If the floor is clean, **Restorer 237** may be used with the two bucket method without wet mopping first.
4. Dilute 1 part **Restorer 237** with 3 parts water in a clean mop bucket. Thoroughly wet out a clean mop and wring until the mop does not drip. Mop floor, rewetting and wringing the mop often.
5. Allow the floor to dry. Buff with a polishing pad on the high speed buffer.
