

DAZZLE NON-BUTYL CLEANER/DEGREASER 420

Dazzle is the ultimate state of the art product for cleaning effectiveness, safety to personnel, and harmlessness to the surfaces to be cleaned. The particular combination of detergents and emulsifiers in **Dazzle** has proven to be more effective in emulsifying oils in all applications than any butyl cellosolve type cleaner encountered in the market. This effectiveness is accomplished without the use of potentially hazardous chemicals (such as caustic soda or butyl cellosolve) in its formulation. As a result, **Dazzle** is less irritating to the hands and skin. It is low-foaming, therefore easily rinsed leaving no residue after drying. It contains a very fresh fragrance which leaves cleaned areas with a clean, fresh presence, not a heavily perfumed aroma. Additionally, **Dazzle** deodorizes as it cleans, making it an excellent choice for bathrooms, garbage cans and other areas where odors can be a problem. U.S.D.A. A4, A8

DIRECTIONS

This all-purpose cleaner/degreaser can be used on most hard surfaces not damaged by water. **Dazzle** can be used at a dilution ratio of 1 to 128 (1 oz. per gallon) to full strength. Hot water will improve cleaning results and reduce time and effort required. Below are some suggested dilutions for average soil loads. Use less water or soak longer for heavily soiled surfaces. **Dazzle** should be sprayed, brushed or mopped on the surface to be cleaned. Allow to soak a few minutes and rinse thoroughly.
